October 2014

Summer Newsletter

New phone number

01604

670400

We are moving!

We will be moving from our existing office at Angel Street before the 31st October. Unfortunately it appears our new phone lines will not be working prior to 30th or 31st October! Due to this if you call us on our current number 01604 630087 during the move you may need to leave a message and someone will call you back when they pick up the message. Please make a note of the new telephone number and the new address. Our website will have all of the up to date address and contact numbers on, so if you misplace them just google Northants County UNISON. The website is <http://www.unisonnorthants.org.uk/> in the future mailings will be sent out through either this website or through our national membership system. For those with current e-mail addresses, in the future they will be sent electronically, saving both paper and money on postage costs. UNISON is committed to looking after the environment and changing the way we communicate with you will help immensely. On the reverse of this short change of address newsletter is an amendment form, we would ask that everyone fills this in with up to date details and return it to us with the freepost address at your earliest convenience. Please check with colleagues that you know are in UNISON that they have received this newsletter, we have a significant number of members with no current address and due to workplace moves and payment by direct debit, it is becoming increasingly difficult to locate these members! It's important we know where members are for when we consult them and we can also keep them up to date with any changes to pensions and ballot information. If you are paying into UNISON its important we know where you are, please keep us up to date with any changes.

Our new office will offer us more opportunities to provide in house training, we will be able to hold our Stewards Meetings and Branch Committee's in the training and boardroom area. This will save us money as there will be no further cost in hiring venues. We will have modern computers, that will allow us to get your details quicker when you call in. The staff in the office are looking forward to the move, as the current office has been in need of decoration and repair for some considerable time! The

new office will also make us more accessible for those working in the north and east of the county as well. If you want to call in and speak to someone it will be advisable to phone and make an appointment, as if there are any meetings taking place it would not be possible for you to get access. We will all be pleased when we are in the new premises as it has been a very stressful time for all of us and at times it has seemed like a battle to get things in place! Our Branch Treasurer Peter Borley-Cox has worked tirelessly to ensure we are getting the best deal and the best quality. Our administration staff have also put in a great deal of time ensuring everything is going through as it should, our branch Chair Andy Langford has also put in a lot of his own time to help us out during this time, a big thank you to all of you. I'm sure once we are in it will have all been worth it?

Steve Bennett, Branch Secretary.

Our new office, 6 Darnell Way, NN3 6RW

Are your details correct, do we have your current e-mail address, mobile telephone number and correct address details. We are hoping in the future to send out most of our mailings electronically, this will help the environment by saving paper and conserve fuel being used in the delivery of your post. Please take the time to fill in these details correctly.

Once completed please return to us by freepost to:-

Thank you for taking the time to do this it is important our records are up to date. This is essential especially if we are balloting for any reason.

Pictured here are the Bugbrooke RFC in their new kit, which was donated by your UNISON Branch. We do our best to help out with teams in our community and the lads were very pleased with their new kit and they are calling it their lucky kit! You can hopefully see the medals around their necks and the plaque being held. There is a picture of the medal alongside as well. The first time they played in this kit they won Men's Own RFC, Ernie Dalby Tournament. Congratulations to them all and we are hoping the kit continues to bring them success?
